

Installing Tools for this Course

Let's install the necessary tools for this course

Over the next few lectures we'll look at getting all of the tools necessary to be successful in this course installed. Specifically we'll look at:

- ❖ Installing Python
- ❖ Installing Eclipse
- ❖ Installing PyDev
- ❖ *Installing the pyodbc Module **
- ❖ *Installing the MySQL Driver **
- ❖ *Installing the Microsoft ODBC Driver **

** The focus on these lectures will be on SQLite. MySQL and SQL Server are only covered in Lecture 1 for intermediate - advanced users*
